

Eel River Forum
Meeting Agenda
September 25, 10:00am-3:00pm
Cal-Fire Training Facility
17501 North Hwy 101, Willits, CA 95490

Meeting Purpose: This Eel River Forum meeting is the first in a two part series on climate change related topics in the Eel River Valley. The meeting includes a broad assessment of climate change impacts presented by Ted Grantham who is pulling from California's Fourth Climate Assessment Findings for the North Coast Region, followed by presentations on more specific topic areas including eco-hydrology, presented by David Dralle; climate change effects on water temperatures presented by Eli Asarian.
