## SANTA MARGARITA RIVER BRIDGE & FISH PASSAGE PROJECT

JANUARY 2023 - MAY 2024

## Sandia Creek Drive

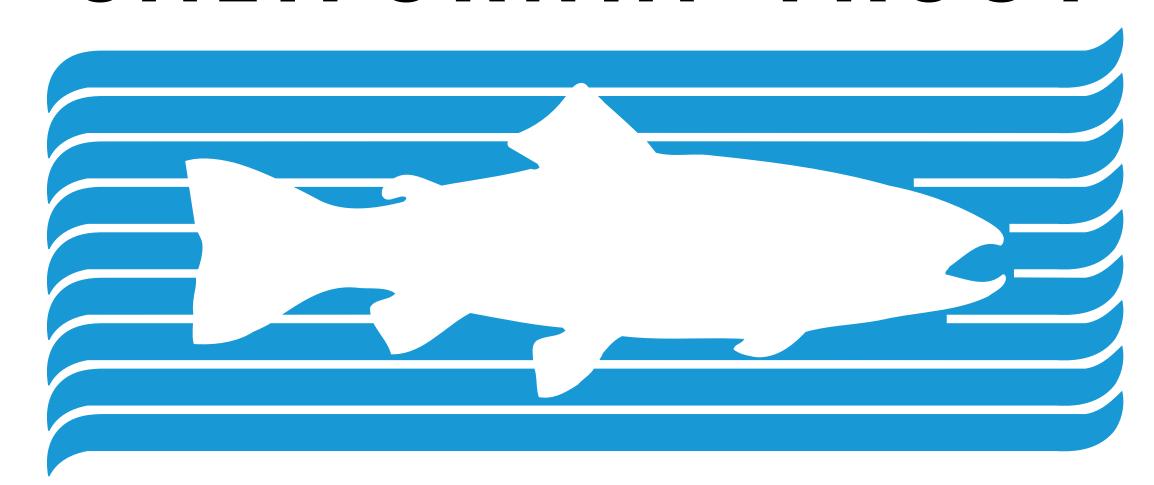

We acknowledge that the land on which we gather is the traditional territory of the Luiseño / Payómkawichum people.

The existing bridge will remain open during construction. The new bridge will be constructed downstream of the existing structure. Scan the QR code for more project information. For Preserve and trail information call TWC: (909) 372-0138.

## CALIFORNIA TROUT

FISH · WATER · PEOPLE

This multi-benefit community project will:

- provide access to 12 miles of upstream habitat for steelhead
- improve trail user experience and safety
- increase quality of habitat for multiple species
- protect the public from flood impacts
- provide jobs and boost the local economy.
